Hi Terri,

As we discussed on Monday, here is the Formaldehyde Assessment for a review and tech edit. Only the Hazard Identification section is ready for a tech edit. Note: although the section is included, please do not review the respiratory pathology section in Section 1 – Hazard Identification.

I left the Front Matter before the Hazard Identification in so you could see the format and title headings etc. I also send the appendices for the same reason.

Please let Andrew or I know if there is anything else you need or if you need answers to questions.

Thanks for working with us!

Regards, Barbara
